

OFF ROAD

LOTUS CARAVANS 2026 OFF ROAD RANGE

LOTUS
CARAVANS

AUSTRALIA IS CALLING

TOUGH IN EVERY TERRITORY, THE 2026 OFF-ROAD RANGE HAS BEEN ENGINEERED TO HANDLE AUSTRALIA'S HARSHTEST CONDITIONS WITH COMPLETE CONFIDENCE. WITH A STRONGER CHASSIS, SMARTER POWER SYSTEMS, SHARPER EXTERIOR DESIGN, AND THE MOST LUXURIOUS INTERIOR SCHEMES IN THE INDUSTRY, THIS LINEUP IS COMMANDING, DURABLE AND DEPENDABLE, REPRESENTING THE NEXT GENERATION OF AUSTRALIAN OFF-ROAD CARAVANNING.

For twenty-two years, Lotus Caravans has designed and produced the best off-road caravans for real Australian travel. Every enhancement comes from hands-on testing, long stretches on rough roads, and years of refining and perfecting. With four distinct models and twenty enhanced floor plans for individuals, couples and families, there is a configuration to suit every style of adventure.

Wholly Australian-owned and made, and built to the highest quality standards, you can be certain that Lotus Caravans will never hold you back.

AUSTRALIA'S TOUGHEST OFF-ROAD CARAVANS

BUILT TOUGH FOR AUSTRALIAN CONDITIONS, THE LOTUS CARAVANS OFF-ROAD RANGE IS THE RESULT OF TWO DECADES OF INNOVATION, TESTING, AND PRACTICAL OFF-ROAD EXPERIENCE.

Every rig is designed and manufactured in Australia, using world-leading materials and proven construction methods that have been pushed to the limit across the country's harshest terrain. Epitomising the fearless Conquer Your Path attitude Lotus Caravans was founded on, every model is engineered to take off-roading to the extreme.

Tackle dunes, dirt paths and creek crossings with confidence, knowing that wherever the track leads, you're equipped to go the distance.

22 YEAR FAMILY HERITAGE

FOUNDED ON AUSTRALIAN GRIT AND A COMMITMENT TO MANUFACTURING CARAVANS THAT ENDURE, LOTUS CARAVANS REMAINS THE COUNTRY'S MOST RESPECTED FAMILY-OWNED AND OPERATED OFF-ROAD MANUFACTURER.

Three generations have strengthened the business through decades of testing, refining and pushing capability further. Today's prodigy continues that work with the same focus on durability, innovation and premium craftsmanship. Every caravan is designed and built in Victoria, and each reflects the family's belief that if it carries the Lotus Caravans name, it must meet the highest industry standard.

Strong partnerships are a core part of this heritage. Long-standing relationships with leading Australian suppliers and engineers support every innovation. From S&M's advanced chassis engineering to REDARC power systems, Cruisemaster suspension and Boss Aluminium fabrication, each rig is backed by partners who share the same expectations around reliability and performance.

Across more than two decades, the Lotus Caravans' ethos has remained unchanged. Build caravans in Australia, for Australian travel, using proven methods and world-class components. This commitment has earned the trust of thousands of owners who rely on Lotus Caravans to take them further and deeper than they ever thought possible.

TROOPER PLATINUM

THE APEX TRAVELLERS VAN

Available in 8 different ergonomically-designed floor plans, ranging in size from 20'6" to 24'5".

When nothing less than the best will do, the Trooper Platinum stands at the top of the off-road hierarchy. Built for travellers who know exactly what they want, this model represents the ultimate expression of Lotus Caravans' engineering. It delivers power, performance and polish in perfect balance, setting a benchmark other caravans aspire to reach. Every component, system and finish has been

selected for serious off-road, luxury travel. The Trooper Platinum takes everything Lotus Caravans is known for and advances it with upgraded capability, increased power, and refined detailing at absolutely every touchpoint. From the Kimberley's red dust to Tasmania's alpine roads, the Platinum is designed to go anywhere and do it with composure, confidence and unmistakable style.

TROOPER TRX

THE NEXT EVOLUTION IN OFF-ROAD PERFORMANCE

Available in 20 different ergonomically-designed floor plans, ranging in size from 18'9" to 24'6".

The Trooper TRX delivers the new standard in off-road capability. Purpose-built for long stretches and Australia's toughest tracks, it combines upgraded power systems, enhanced durability, and polished interior styling for travellers who prefer to live life on the edge of the map.

From the Coral Coast to the Gibb River Road, Karijini to the Snowy Mountains, the Trooper TRX is your connection to the Australian environments that test both the traveller and the machine. Designed for strength, powered by innovation, and finished with the finesse Lotus Caravans is famous for, this van truly turns adventure into an art form.

TROOPER

THE SIGNATURE OFF-ROAD CARAVAN

Available in 20 different ergonomically-designed floor plans, ranging in size from 18'9" to 24'6".

Refined for 2026, the Trooper brings proven toughness together with next-generation upgrades across power, performance and interior refinement. Designed to conquer every path, it remains the benchmark for off-road caravanning in Australia. From Cape York to the Tanami Track, the Trooper thrives where others falter. Its strengthened electrical system and advanced off-grid capability give you the power and reliability to keep going, no matter

how far the track stretches. With premium finishes and thoughtful design, every day on the road is easy, more comfortable and more enjoyable. Navigate water crossings, dunes and rugged trails or settle into your favourite remote campsite with the confidence that comes from a rig built for real Australian travel. Every element of the 2026 Trooper has been crafted to support your journey and expand where you can go.

OFFGRID

THE LIGHTER WEIGHT OFF-ROAD ADVENTURER

Available in 7 different ergonomically-designed floor plans, ranging in size from 17'9" to 21'.

The adventure-seeking Off Grid carries the DNA of our best-selling models. It's as tough-as-nails, with a high-end home-away-from-home experience customers have come to expect from Lotus Caravans. The Off Grid is built for travellers who want serious off-road performance without the heavy tow. It's more compact, tougher, and dependable, a van that opens up more places for more people. From weekend trips

to long hauls, it delivers the power, protection, and practicality Lotus Caravans is known for. This is off-road adventure made easy. With durable construction and a lighter weight, smart design, the Off Grid gives you everything you need to explore further with complete confidence.

FREELANDER

REDEFINING COMFORT AND QUALITY

Available in 20 different ergonomically-designed floor plans, ranging in size from 18'9" to 24'6".

Expertly designed and built from the ground up, the Freelanders is your gateway to Lotus Caravans' premium off-road experiences. It's approachable yet brimming with the industry's finest features, inviting you to embark on your next great adventures in our signature luxury, durability and style. Redefining comfort and quality, the Freelanders takes your travels to new heights. Designed with innovation at its core, it's engineered for the toughest terrain, featuring

marine-grade composite panelling, thick checkerplate body armour, and complete underbody protection for ultimate durability. Immerse yourself in pure indulgence as you enjoy endless hot water, reverse cycle air conditioning, and a gourmet kitchen that elevates your on-road living. The Freelanders' versatile floorplans and customisable design options provide flexibility to suit your unique needs.

ENGINEERED FOR IMPACT, BUILT TO PERFORM

THE 2026 OFF-ROAD RANGE INTRODUCES A NEW EXTERIOR DESIGN LANGUAGE FOR LOTUS CARAVANS. TOUGHER, SHARPER AND MORE FUNCTIONAL, EVERY SURFACE HAS BEEN RE-ENGINEERED TO WITHSTAND REAL AUSTRALIAN CONDITIONS WHILE DELIVERING A COMMANDING ON-ROAD PRESENCE UNLIKE ANYTHING YOU'VE EXPERIENCED BEFORE.

AL+ aluminium framing forms the backbone of each van, paired with your choice of marine-grade composite panel and the new Duraplate option for increased durability and impact resistance. The 2026 styling packs, designed in-house by the Lotus Caravans team, bring a bolder aerodynamic shape across the front and rear profiles, integrating LC Customs elements including the LC Customs Drag Wing, LC Customs Stealth Solar Panel Bracket and heavy-duty LC Customs Boss Aluminium Stealth toolboxes.

Reinforced edges and precision mounting points protect high-wear zones, while upgraded LED work lights and signature Lotus Caravans detailing improve visibility and usability at any hour. Clean lines, flush double windows, Boss Aluminium access doors, and refined colourways complete a look that is unquestionably Lotus Caravans.

Every detail of the 2026 exterior has been curated for strength, function and visual authority, creating head-turning impact that sets the future tone for off-road design.

THE FOUNDATION OF SUPREME OFF-ROAD PERFORMANCE

The off-road line-up rises from one of the most advanced chassis and suspension systems in the industry. The new X-Guard chassis with drop goose-neck design improves strength, balance and towing performance, creating a tougher platform built for serious off-road use.

Lotus Caravans partners with Australia’s leading suspension specialists to deliver class-leading control. The Trooper Platinum and Trooper TRX models feature Cruisemaster ATX air suspension with the Body Control System for automatic self-levelling, improved ride quality and superior stability across uneven terrain. The Trooper and Off Grid models are fitted with heavy-duty Cruisemaster XT airbag suspension and 12-inch off-road brakes for confidence on corrugations, climbs and technical tracks.

Reinforced underbody protection, premium couplings and Dirty Life wheels complete a system engineered for capability. Every component has been chosen to increase durability, improve towing manners and maintain control when conditions change.

This is toughness you can feel on and off the road, backed by engineering you can rely on anywhere in Australia.

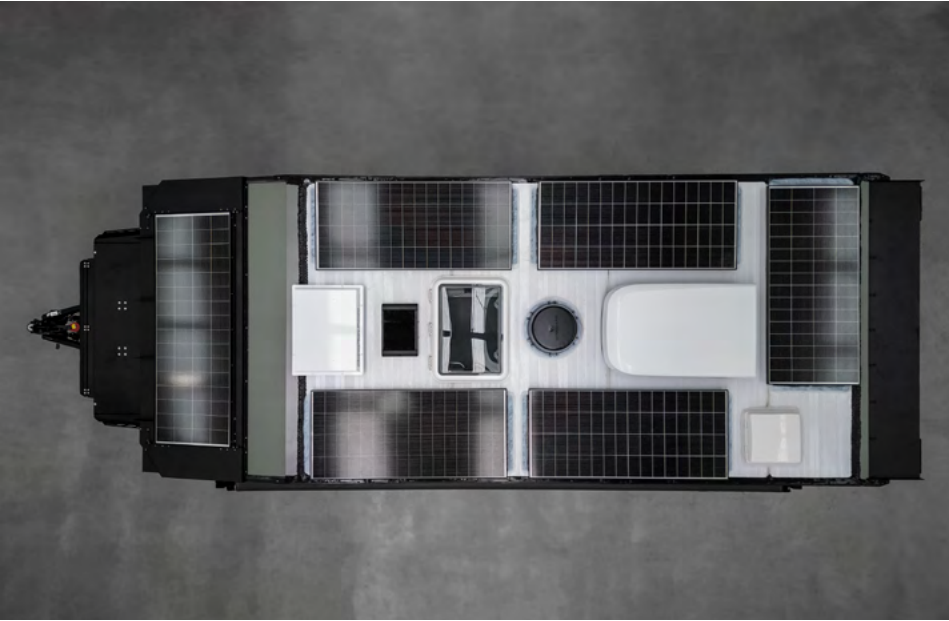

**HIGH-CAPACITY POWER
SYSTEMS DESIGNED FOR REAL
OFF-GRID TRAVEL**

Every off-road model is equipped with a premium REDARC power system, matched with high-output solar, intelligent charging and seamless, simple control over every component.

Standard configurations begin with the LC Customs Power Stack featuring 300Ah REDARC lithium battery, 3000W inverter, 50A charger and 750W of solar, providing a strong baseline capability for remote travel. For travellers who demand more, level up to 900Ah of REDARC lithium storage, dual 3000W inverters, 100A charging and up to 1450W of rooftop solar.

RedVision and the updated REDARC BMS interface provide clear, centralised monitoring of power, lighting and key utilities through the integrated iPad dock or your phone. Air conditioning, cooking, entertainment systems and Starlink can run comfortably off-grid, allowing you to stay in remote locations longer. This is dependable, high-capacity power built for Australian conditions.

FUNCTIONAL FLOORPLANS REFINED FOR THE ROAD

INSIDE EVERY LOTUS CARAVANS OFF-ROAD MODEL IS AN INTERIOR DESIGNED FOR THE REALITIES OF TRAVEL. ACROSS THE RANGE, UP TO TWENTY ERGONOMICALLY PLANNED FLOORPLANS GIVE COUPLES, FAMILIES AND SOLO TRAVELLERS THE FLEXIBILITY TO CHOOSE A LAYOUT THAT SUITS THE WAY THEY MOVE.

Options for rear or dual entry improve day-to-day functionality, while club lounges, side lounges and dedicated dining zones create comfortable spaces to unwind. Separate sleeping and bunk areas provide privacy and structure for families, and selected layouts offer built-in desk or office zones equipped with every conceivable outlet for working on the road.

Storage is abundant and purposeful, with overhead compartments, under-bed capacity, step storage and access doors keeping essential gear close and organised. Wide kitchen benches, some of the largest ensuites on the market, and considered circulation paths ensure the interior feels open, practical and easy to live in.

Every layout has been designed to maximise usability, durability and comfort, creating an interior space that supports long-term off-grid travel.

PREMIUM INTERIORS CRAFTED TO ENDURE

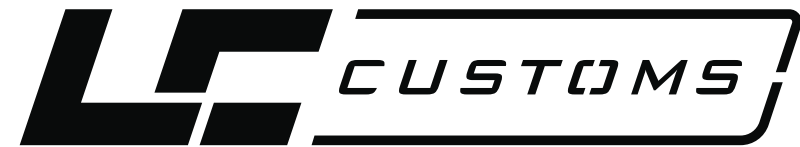

Every interior scheme is professionally designed for durability, luxurious comfort, and everyday functionality on and off the road. Materials, appliances and finishes have been selected for long-term performance, with a design standard that sits at the top of the off-road market.

Signature flooring options, supported by a lightweight honeycomb substructure, deliver strength underfoot and a clean, modern look. Rainfall benches, soft-close, interlocking cabinetry and refined hardware create a streamlined finish across kitchens and living zones. Premium leather lounges in club, side or straight configurations offer durable comfort for daily use, and easy-care cleaning for life on the road.

Kitchens are equipped for everyday cooking, with a versatile loose induction cooktop, a 3-in-1 convection oven and a full-size 216L fridge. The Trooper Platinum includes a Fisher & Paykel dishwasher as standard, available on selected layouts only.

Lighting has seen a major upgrade, with ambient strip lighting, task lighting and feature accents that improve visibility and enhance the feel of each space. Technology integration includes Starlink-ready mounts, an iPad dock for REDARC control and well-placed USB and 240V outlets.

A NEW STANDARD IN OFF-ROAD CUSTOMISATION

LC Customs gives travellers the freedom to take their caravan further with a suite of premium upgrades engineered to enhance capability, durability and functionality. Designed in-house and integrated with every model in the range, LC Customs products allow you to tailor your van to suit the way you travel.

A collection of key elements now come standard across the line-up, including the LC Customs Front and Rear Styling Packs, LC Customs Stealth Solar Panel Bracket, LC Customs Drag Wing and the LC Customs Boss Aluminium Stealth Toolbox. Together, these upgrades sharpen aerodynamics, increase storage, improve lighting and add practical protection across high-wear zones.

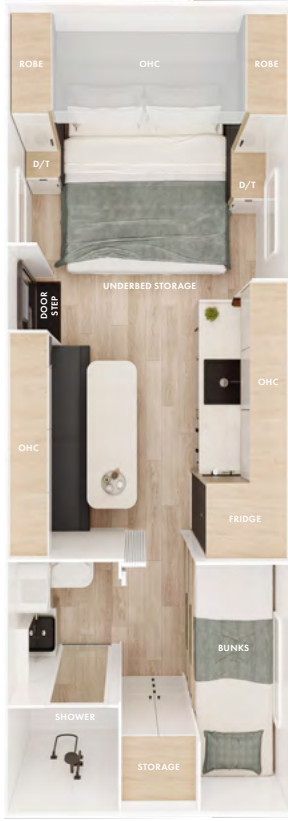

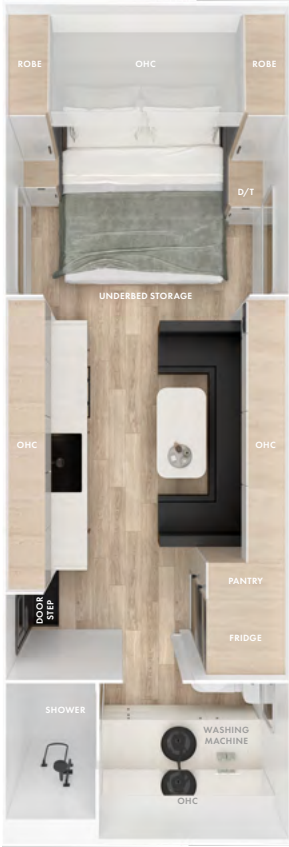

Beyond the standard inclusions, the LC Customs collection features more than twenty additional products. These include Boss Hatch Doors, Wood Box Bumper, LC Customs Window Shields, Slide-out Kitchen with gas or induction options, Exterior LC Customs Pantry systems and the LC Customs Boss Stealth Molley Toolbox. Each product is built to the same durability and performance standard as the vans themselves.

LC Customs upgrades give you the opportunity to build a caravan that matches your expectations for strength, capability and premium off-road touring.
